

Accessit

The most loved school library system.

Everyone has different demands. Accessit answers them all.
Easy to use, powerful, flexible and dependable.

Engaging student experience

Accessit will motivate your students to be active participants in their own learning and discovery.

Exceptional customer support

Our support team are real people with library experience, eager to assist you.

Accessit One Search

Accessit provides a single discovery tool, extending any search far beyond the library catalog.

Robust and reliable

The system runs itself with little need for IT intervention.

Flexible and configurable

Works for every type of school, campus and resource, integrating with virtually all IT systems.

Packed full of features that everyone will love.

“After years of using uninspiring library platforms, I LOVE the way the Accessit dashboard looks and functions! Being able to customize our 2 campuses with news articles, trending titles, One Search and more, engages all of our students from K through 12. And it’s all available anyTIME and anyWHERE with the click of a mouse or app!”

SJ Drummond, Librarian/Edtech Resources at Fuqua school

A modern, dynamic library system that you can be proud to put in front of your users. Not only will you love using it, but your students will too.

Students love Accessit because the interface is attractive, engaging and intuitive to use. They can connect to the library on their own devices, when and where they want to, and interact with the catalog, “liking” and reviewing items, as well as managing their own library experience. Best of all, they only need one login to reach everything.

Teachers love Accessit because it makes their lives easier. Accessit’s One Search gives your students one place to find independently curated, scholarly material, expanding your potential classroom resources exponentially – and bringing information literacy into the classroom.

Your IT department love Accessit because we put security first. Plus, Accessit integrates your 3rd party systems and can be cloud hosted and managed by us. With a system that runs itself, and excellent IT support, it frees you up to focus on what really matters.

Principals, parents and school boards love Accessit because it encourages a love of learning, reading and discovery. It is a system you will be proud to showcase in your school and community, and delivers excellent value for money.
